The Great Park Conservancy

Laura Dietz introduced Peggy Goldwater Clay. Peggy Goldwater Clay has more than 25 years of entrepreneurial experience and community involvement in public relations, marketing, sales, product development, customer relations, fund raising, event planning, volunteer management and community relations. She now holds the position of Community Relations consultant for the Great Park Conservancy. Mrs. Clay was a trustee of The UCI Foundation, is a board member of the Air Force Academy Foundation and

President Bush appointed her to the board of the Barry Goldwater Scholarship Excellence in Education Foundation, where she is chair.

The Great Park Conservancy was formed in 2000 to support the creation of the Orange County Great Park. Working together with the Great Park Corporation and the City of Irvine, the Conservancy shares with these other organizations a common goal of creating a truly wonderful park for the entire Orange County community.

Great Park Conservancy is committed to supporting a regional advocacy program that promotes the goals, purposes, and uses for the creation of the best possible Orange County Great Park. Since its inception, the Conservancy has promoted a positive vision for the creation and development of the Great Park. They continue the important job of taking a consistent message of support to the community through a comprehensive Public Information advocacy program.

Their countywide Public Information Program's current and past work includes: quarterly newsletters, their website, emails to the Web Community, televised public service announcements, community surveys, posters, and other support materials for the Orange County Great Park.

Through their Public Information Program, they have reached hundreds of thousands of residents with a strong message of support for the Orange County Great Park. The Great Park Conservancy supports and promotes public involvement in the creation of the Orange County Great Park. They involve residents from all over Orange County to ensure a regional focus for the Great Park. Their Outreach Program aims to reach all levels of the community. The Conservancy has already raised over \$2 Million in support of the Great Park. Over time, they will raise tens of millions of dollars in private funding to enhance developments within the Great Park.

They are establishing a fundraising base that will help to raise money for the public facilities and programs at the Great Park. These programs and facilities will add great value to the

Great Park financing plan developed by the City of Irvine.
